Endorsement/Support Statement *

Please provide a short statement (2-6 sentences) on why you support the SCCOOS program. We encourage examples of how your affiliation uses SCCOOS data and products, why this information is valuable, and/or how your affiliation collaborates with SCCOOS.

The City of Santa Barbara fully supports the SCCOOS program. The data generated from the Stearns Wharf Automated Shore Station has assisted the City in determining the severity of algae blooms occurring near the desalination facility. Algae blooms cause difficulty in operating the desalination facility and having real time monitoring data available allows the City and its contract operators to make decision on the operations of the plant.
