Introduction

Seabird studies are an integral part of the California Cooperative Oceanic Fisheries Investigation (CalCOFI), California Current Ecosystem - Long-term Ecological Research (CCE-LTER), and Southern California Coastal Ocean Observing System (SCCOOS) programs. The seabird data is valuable for several reasons. First, information on seabird distribution and abundance provides an upper trophic level perspective which complements the lower trophic level plankton and hydrographic data collected by others. Second, estimates of seabird abundance, diversity and distribution contribute to understanding the spatial ecology of the Southern California Bight and adjacent marine habitats, a region characterized by substantial temporal environmental heterogeneity and major oceanographic and biogeographic boundaries associated with Point Conception. Third, by extending our existing records (now 29 years and building; 1987-present) and coupling this information with long-term hydrographic and plankton data, seabird data contributes to understanding the effects of climate variability and change on the southern sector of the CCE. Other anthropogenic impacts for this region include coastal development, contaminant input, as well as other biotic changes due to fisheries and other extractive uses of marine life. Seabirds are responsive to all of these factors.

This data report summarizes observations made during 6 seasonal CalCOFI/CCE-LTER cruises in winter, spring and summer of 2015 and 2016. We present basic data on survey effort as well as summary information on seabird distribution and abundance. A total of 41 days of survey effort, covering 4,351 km (1,304 km²) of ocean habitat is summarized for 2015. A total of 55 days of survey effort, covering 6,393 km (1,918 km²) of ocean habitat is summarized for 2016.

Methods

Observations of seabirds are made continuously during daylight ship transits between oceanographic and plankton sampling stations. The observer, located on the bridge approximately 15 meters above sea level, uses hand-held binoculars to assist in the identification and enumeration of birds. The observer records all birds seen within a 300 meter strip transect to one side and front of the vessel while the ship is underway at > 5 knots. Observations are entered into a portable computer using the dedicated application "Dlog"; the ship's position is automatically recorded periodically from an external GPS. Each observation includes the species, the number of individuals observed, and their behavior (mostly flying or sitting). At-sea

observation data are post-processed using standardized species codes, validation of positioning data, and binning of observations into along-track sections of 3 km in length. The data are then integrated into a survey database which includes data from May 1987 to the present. This data is used to derive summary statistics.

The seabird species summarized are listed in Table 2 and Table 3. Taxa excluded from this summary include all mammals, fish, terrestrial birds and most shorebirds except phalaropes which are largely pelagic. Species density is calculated as the total number of individuals observed per species divided by the area (km²) surveyed. The overall distribution of seabirds is illustrated by plotting density at each bin's center position. The density is represented by a circle whose diameter is scaled using the Jenks method in ArcGIS version 9.3.

Results

A summary of survey effort is shown in Table 1. Seasonal and overall transects surveyed are shown in Figures 1-8. A summary of species observations is shown in Table 2 (2016) and Table 3 (2015). Distribution maps for overall seabird density (all species) are shown in Appendix 1. A detailed species list is provided in Appendix 2.

Appendix 2. Species Lists

The following criteria were applied to the survey database to select data for the summary.

Behavior codes included	All values
Species categories included	Birds, Unidentified
Species categories excluded	Mammals, Fish, Excluded Species List
Years	2015, 2016
Months	All months
Bin length	All bins > 0.1km
Region	All regions
Seasons	All seasons

The following species were excluded from this analysis.

Common Name	Latin Name
American Coot	<i>Fulica americana</i>
Black Oystercatcher	<i>Haematopus bachmani</i>
Black Skimmer	<i>Rynchops niger</i>
Black Tern	<i>Chlidonias niger</i>
Black Turnstone	<i>Arenaria melanocephala</i>
Brewer's Sparrow	<i>Spizella breweri</i>
Bufflehead	<i>Bucephala albeola</i>
European Starling	<i>Sturnus vulgaris</i>
Great Blue Heron	<i>Ardea herodias</i>
Great Egret	<i>Ardea alba</i>
Green Heron	<i>Butorides virescens</i>
Least Sandpiper	<i>Calidris minutilla</i>
Long-billed Curlew	<i>Numenius americanus</i>
Long-billed Dowitcher	<i>Limnodromus scolopaceus</i>
Mallard Duck	<i>Anas platyrhynchos</i>
Marbled Godwit	<i>Limosa fedoa</i>
Mourning Dove	<i>Zenaida macroura</i>
Red-Breasted Merganser	<i>Mergus serrator</i>
Ruddy Duck	<i>Oxyura jamaicensis</i>
Sanderling	<i>Calidris alba</i>
Snow Goose	<i>Chen caerulescens</i>
Snowy Egret	<i>Egretta thula</i>
Unidentified Bird	(species group)
Unidentified Dowitcher	(species group)
Unidentified Goose	(species group)
Unidentified Hummingbird	(species group)
Unidentified Passerine	(species group)
Unidentified Shorebird	(species group)
Western Sandpiper	<i>Calidris mauri</i>
Whimbrel	<i>Numenius phaeopus</i>
White-Winged Scoter	<i>Melanitta fusca</i>
Willet	<i>Catoptrophorus semipalmatus</i>
Yellow-Rumped Warbler	<i>Dendroica coronata</i>

Baird's Beaked Whale	<i>Berardius bairdii</i>
Blue Shark	<i>Prionace glauca</i>
Blue Whale	<i>Balaenoptera musculus</i>
Bottlenose Dolphin	<i>Tursiops truncatus</i>
California Sea Lion	<i>Zalophus californianus</i>
Common Dolphin	<i>Delphinus delphis</i>
Cuvier's Beaked Whale	<i>Ziphius cavirostris</i>
Dall's Porpoise	<i>Phocoenoides dalli</i>
False Killer Whale	<i>Pseudorca crassidens</i>
Fin Whale	<i>Balaenoptera physalus</i>
Gray Whale	<i>Eschrichtius robustus</i>
Green Sea Turtle	<i>Chelonia mydas</i>
Guadalupe Fur Seal	<i>Arctocephalus townsendi</i>
Hammerhead Shark	<i>Sphyrna</i> spp.
Harbor Porpoise	<i>Phocoena phocoena</i>
Harbor Seal	<i>Phoca vitulina</i>
Hawksbill Sea Turtle	<i>Eretmochelys imbricata</i>
Humpback Whale	<i>Megaptera novaeangliae</i>
Killer Whale	<i>Orcinus orca</i>
Leatherback Turtle	<i>Dermochelys coriacea</i>
Long-beaked Common Dolphin	<i>Delphinus capensis</i>
Mako Shark	<i>Isurus oxyrinchus</i>
Minke Whale	<i>Balaenoptera acutorostrata</i>
Mola Mola	<i>Mola mola</i>
Northern Elephant Seal	<i>Mirounga angustirostris</i>
Northern Fur Seal	<i>Callorhinus ursinus</i>
Northern Right Whale Dolphin	<i>Lissodelphis borealis</i>
Pacific White-Sided Dolphin	<i>Lagenorhynchus obliquidens</i>
Pilot Whale	<i>Globicephala</i> spp.
Pygmy Sperm Whale	<i>Kogia breviceps</i>
Ridley Sea Turtle	<i>Lepidochelys olivacea</i>
Risso's Dolphin	<i>Grampus griseus</i>
Sea Otter	<i>Enhydra lutris</i>
Sei Whale	<i>Balaenoptera borealis</i>
Short-Beaked Common Dolphin	<i>Delphinus delphis</i>
Short-Finned Pilot Whale	<i>Globicephala macrorhynchus</i>
Sperm Whale	<i>Physeter macrocephalus</i>
Steller Sea Lion	<i>Eumetopias jubatus</i>
Striped Dolphin	<i>Stenella coeruleoalba</i>
Unidentified Balaenoptera	(species group)
Unidentified Beaked Whale	(species group)
Unidentified Cetacean	(species group)
Unidentified Dolphin	(species group)
Unidentified Large Whale	(species group)
Unidentified Mammal	(species group)

Unidentified Pinniped	(species group)
Unidentified Sea Lion	(species group)
Unidentified Seal	(species group)
Unidentified Shark	(species group)
Unidentified Turtle	(species group)
Unidentified Whale	(species group)

For a list of species included in the analysis, please refer to Table 2.
